Missile-X
Missile-X

Missile-X

FEATURES

- Solid state circuitry for dependable trouble free operation
- Fantastic back scenery in real life color captures the players attention and gives the game a touch of realism
- Authentic sound of missile launch explosions when a hit is made, as well as the realistic engine sounds of jeeps and tanks

HOW TO PLAY

- One player game
- Targets are small tanks (100 points) large tanks (200 points) and jeeps (400 points) which move across the simulated landscape from right to left and left to right
- Set the target selection lever to 100, 200, or 400, so that it corresponds to the target on the screen
- While evoiding anti-missile fire guide the launched missile onto the moving target by careful manipulation of the missile control stick
- Playing time is 90 seconds, extended play time when score reaches 4000
